Jones Bank Security Tips

- Password protect your mobile device and lock it when it is not in use.

- Do not use your Social Security Number as a user name or password. Passwords should be a combination of letters, numbers and special characters (@, !, #, $).

- Change your passwords regularly.

- Protect your passwords, do not write them down or share them with anyone.

- Keep your mobile device in a safe location.

- Frequently delete text messages on your mobile device that have account information, such as balances and transaction history.

- If you use Jones Bank's Text Banking, know that we will never send you an unsolicited message or ask you for a password or personal information via text. If you receive this type of message, please don't respond. Never disclose personal information about your account via text message.

- Don't open messages from unknown senders or click links sent via text or email as they may direct you to a malicious site.

- Contact Jones Bank at 402-643-3602 to change your mobile banking details such as your mobile phone number.

- Install mobile security software on your device.

- Report any banking applications that appear to be malicious to us right away.

- For your security, sign off when you finish using the Web Browser or App.

- Monitor your financial records and accounts on a regular basis.

- Avoid using unsecured and public WiFi access.

- Only download applications from trusted sources and make sure to download updates regularly to fix security flaws.

- If you opt out of Mobile Banking, lost or upgrade your phone or terminate the relationship with the bank information should be removed from your phone.
